

## **Device Lifecycle Services Simplified to Highlight Significant Profit Opportunities**

Submitted by bobrien on Mon, 01/07/2013 - 5:12pm Ingram Micro Mobility

The demand for smart and connected devices is booming at an exponential rate. With that growth comes increased competition and added complexities that can cloud the opportunities for entering or profiting from the technology industry. By simplifying a device's lifecycle it becomes easier to pinpoint where your opportunities lie, and know who to ask for guidance on pursuing them.
